Adhesives/glue remover

This product is acceptable for use as an adhesive or glue remover, for removing adhesive or glue from food packaging materials in and around food processing areas, where there is no risk of vapours entering an area for food packaging materials. The product is not intended for direct food contact. Prior to use all food and packaging material should be removed or covered when the compound is used in food processing areas. Areas treated with this product must be washed with approved detergent and thoroughly rinsed with potable water before being returned to a food processing area. Ensure that all odours and abrasive residue is removed or dissipated in and around the food processing area.

Use the product according to the manufacturer's instruction and applicable label directions. The amount used should be the minimum required to accomplish the desired technical effect.
