

This is to certify that

UNIL DRY SPECIAL

supplied by

UNIL LUBRICANTS

Bergensesteenweg 713, 1600, Sint-Pieters-Leeuw, BE

has been registered by 2probit.eu

General

This product is acceptable for use as an absorbent or anti-slip agent for spot application on floors to correct a hazardous condition in food processing areas. The product should only on the area of the floor where the hazard exists, doesn't cause dusting, tracking, or other unacceptable conditions. The product must be regularly removed as part of routine floor cleaning and not as a substitute to good sanitation.

Use the product according to the manufacturer's instruction and applicable label directions. The amount used should be the minimum required to accomplish the desired technical effect.
