has been registered by 2probit.eu

General cleaners

This product is acceptable for use as a general cleaner for food processing areas. The product is not intended for direct food contact. Prior to use all food and packaging material should be removed or covered when the compound is used in the food processing areas. After the use the cleaned area should be thoroughly rinsed with potable water and shall neither exhibit a noticeable odour or leave visible residue.

Nonprocessing area product

This product is acceptable for use as a cleaner and degreaser for non-food processing areas, for removing oil, wax, resinous materials, or other substances not removable by using acidic or alkaline cleaning agents and where there is no risk of vapours entering a food processing area. Surfaces, equipment or utensils treated with this product must be washed with approved detergent and thoroughly rinsed with potable water before being returned to a food processing area.

Use the product according to the manufacturer's instruction and applicable label directions. The amount used should be the minimum required to accomplish the desired technical effect.
